LATEST NEWS

The latest addition to IEC LOCK product range is now available!

## INTRODUCING IEC LOCK+ C13 REWIREABLE THE WORLD'S FIRST LOCKING REWIREABLE C13 IEC CONNECTOR!

### Introducing

IEC  
**LOCK+**  
REWIREABLE

This new addition complements our existing product range and brings additional key features such as total flexibility when assembling cables as well as ease of use.

Its slim design means it can easily be implemented in areas where access is limited and ease of removal is of paramount importance. Also, its LSZH (Low Smoke Zero Halogen) attribute is crucial for critical applications in military, broadcast, transportation and data centres.
